DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The previously shingled, two story, detached, residence presently exhibits an aluminum siding surface, however, the shingle first story wall of the main facade remains. The roof has a center gable in addition to two gables in succession on both sides. The uniform, single plane, boxed cornice appears particularly stark in contrast to the adjoining pointed conical, two story tower.

The flat roofed open gallery is supported by wrought iron piers with bracket corner-pieces. The main entrance, advanced from the first story wall has a recessed light transom and a double leaf, two panel, door. The main window, at the right, is approximately the same height as the main entry with transom. It is a double hung, 4/4 construction with shutters and moulded trim.

The second story and tower windows are identical in design having a double hung, 1/1 shuttered and wooden lugsills. Between the lines of the centre gable is a round ventilator opening. At the corner of the tower, at the first story level, is a diamond shaped, recessed opening.

SPECIFIC DATES 1850-75

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

The simply designed, Victorian style residence is located with the oldest, complete block of homes in Waverly. The home, quite probably a summer residence, maintains most of the original architectural character with the sole exception of the aluminum siding and possibly the cornice.
